ANNOUNCEMENT

Enaon EDA: No natural gas leak detected at the Grava school complex

Enaon EDA confirms that no natural gas leak was detected during the technical inspections carried out today at the the Grava school complex.

Following calls received by the company reporting an odour, Enaon EDA's Emergency Response crews immediately attended the site and carried out the necessary technical inspections in the presence of the Fire Service.

The inspections detected no natural gas leak and identified no findings related to the natural gas distribution network.

Enaon EDA remains on standby to respond promptly to any incident, in cooperation with the competent authorities.

Members of the public are reminded that odour reports or other safety concerns relating to the natural gas distribution network can be reported to Enaon EDA's Emergency Response Centre on [800 1187 878](tel:8001187878), available 24 hours a day.
